points**

Max Marks: 90

Question No. 1 (CLO 2)

You are a software developer at a small startup company. You have an idea for a new product that you believe could be very successful in the sports or educational field. **Write an unsolicited internal proposal report** outlining your idea and explaining why you think it would be a good investment for the company. This report must include the following parts: [30 marks]

- Introduction and Background
- Project Description
- Credentials
- Timeline and budget
- Conclusion

OR

You are an undergraduate computer science student who has been assigned to conduct a feasibility study for a proposed software development project. The project aims to develop a mobile application that assists users in managing their personal finances. Your task is **to write a feasibility report** addressing the following aspects:

1. Introduction
2. Technical Feasibility
3. Economic Feasibility
4. Operational Feasibility
5. Schedule Feasibility

Remember to present your findings in a logical and organized manner, providing clear justifications for your assessments and recommendations.

Question No. 2 (CLO 4)

Keeping in mind the etiquettes of professional email, rewrite the following email [20 marks]

Subject: DO THIS NOW!

Message:

I don't care what you're doing; drop everything and sort out my problem right now! I expect a solution within the next hour.

Question No. 3 (CLO 2)

You are an undergraduate computer science student who has been working on a research project throughout the semester. Your project focuses on developing a machine learning algorithm for image recognition. As the end of the semester approaches, your professor asks you to submit a progress report outlining the advancements and challenges faced during the project. In your report, you should also propose a plan for the remaining weeks to ensure successful completion of the project. **Write a progress report. [30 marks]**

Question No. 4 (CLO 3)

Choose the right option. Write only the correct option in the copy: [10 marks]
